Section 1 - PURPOSE AND SCOPE

These funds provide for the procurement and manufacture of tactical and support vehicles and associated equipment. The tactical vehicles are of the type normally used by operation and support forces, and include prime movers and general purpose vehicles usually equipped with multi-wheel drive to satisfy cross country mobility needs. The support vehicles are of the administrative type which are generally equipped with two-wheel drive and are commercial in nature; included are such items as sedans, panel trucks, carryalls and special purpose vehicles.

Section 2 - JUSTIFICATION OF FUNDS REQUESTED

	(\$ 10 1000sands)
Tactical Vehicles - (P-1 Line Items No. 1 - 26)	FY 1984 FY 1985
	981,900 1,622,400

This category includes trucks, trailers, semitrailers, dolly sets, chassis and motorcycles designed for tactical use. The major vehicles in the FY 1984 Request are 4,218 High Mobility Multi-purpose Wheeled Vehicles (HMMV), 15,346 Commercial Utility and Cargo Vehicles (CUCV), 4,499 Five Ton Trucks, and 1,316 Ten Ton Trucks. The FY 1985 program includes 9,624 HMMV's, 24,082 CUCV's, 4,363 Five Ton Trucks and 2,518 Ten Ton Trucks. These major vehicle procurements are required to fill some Active Army and Reserve Component shortages and limited replacement. This includes supporting the fielding of FIREFINDER, PATRIOT, PERSHING II, Sgt York Gun (formerly DIVAD GUN), TACFIRE, MLRS, TOW, FVS, GLLD/HELLFIRE, AN/TLQ-15, AN-GSG-10 and STINGER.

5-11 January 1983

Mon-Tactical Vehicles - (P-1 Line Items 27- 29)

(\$ in Thousands) Y 1984 FY 1985 57,400 84,800

This category includes three sub-categories: Passenger Carrying Vehicles (PCV) (sedans, station wagons, buses, and ambulances); General Purpose Vehicles (trucks, trailers, motorcyles, scooters and semitrailers); Special Purpose Vehicles (maintenance, refuse and construction equipment). The FY 1984 program will provide for replacement of 4,812 vehicles of which 2,181 are for Passenger Carrying Vehicles. The FY 1985 program will provide for replacement of 5,855 vehicles of which 2,208 are for Passenger Carrying Vehicles.

Support Equipment and Facilities - (P-1 Line Items No. 30- 32)

(\$ in Thousands)
FY 1984
FY 1985
108,800
140,600

This category includes Spares and Production Base Support. Spares include engines, transmissions, transfer cases and axles that are required to support newly fielded tactical vehicles as well as the existing fleet of tactical vehicles. Production Base Support includes projects such as Depot Maintenance Plant Equipment (DAPE), Provision of Industrial Facilities (PIF), Military Adaption of Commercial Items (MACI) and Manufacturing Technology Program. These projects support the production base and the maintenance base.

5-12 January 1983.

Department of the Army Annual Budget Estimates	Appropriation	20		PY 1984
JUSTIFICATION				Budget
Program or Budget Project Account		(Thousands	of Dollars)	
	Actual	Betimte	Estimte	Estimate
ACTIVITY 2 - CONSUMICATIONS & ELECTRONICS EQUIP	FT 1962	FY 1983	PY 1984	FY 1985
Direct Obligation or Direct Budget Plan	1,607,830	2,044,004	2,781,205	3,807,900

Section 1 - PURPOSE AND SCOPE

These funds provide for procurement, manufacture, depot rebuild facilities equipment, modification, and production base support of communications and electronics equipment and high dollar value depot reparable assemblies/components for initial provisioning and replenishment requirements. Funds are included for satellite communications, radio, electronic countermeasures, combat wire communications, night vision, photographic, combat surveillance, target acquisition, strategic tactical communications securing and electronics equipment.

Section 2 - JUSTIFICATION OF FUNDS REQUIRED

(\$ In Thousands) FY84 FY85 1,272,205 1,459,000

Telecommunications Equipment (P-1 Line Item Nos. 33-154)

The FT84 budget of \$1272.2 will support the Army's requirements for both tactical and strategic communications worldwide and includes: \$36.7 million for U.S. Readiness Command Communication (FT85: \$20.2 million); \$373.7 million for Joint Tactical Communications (TRI-TAC) (FT85: \$440.0 million); \$185.0 million for Combat Support Communications (FT85: \$266.3 million); \$35.7 million for National Military Command System Communications (FT85: \$23.8 million); \$18.4 million for Strategic Communications (STARCOM-Non DCS) FT85: \$21.4 million); \$31.5 million for Long Haul Communications (FT85: \$54.4 million); \$232.5 million for Satellite Communications Ground Equipment (FT85: \$278.1 million); \$102.4 million for EUCOM Command, Control, and Communications Systems (FT85: \$68.6 million); \$199.5 million for Communications Security Equipment (FT85: \$180.8 million); \$35.0 million for Base Communications (FT85: \$78.2 million); and \$21.8 million for Test Measurement and Diagnostic Equipment (FT85: \$27.2 million). These communications equipments are essential to field, and to sustain in the field, the combat elements of the tray and to provide command and control over these forces by the National Command Authorities, The Joint Chiefs of Staff, and others in the chain of command.

5-13 January 1983

Other Electronics/Equipments (P-1 Line Item No.s 155-246)

(\$ in Thousands) FY84 FY85 1,509,000 2,348,900

This request also provides for Other Electronic Systems and Equipment including: \$159.7 million for Intelligence Support (FY85: \$463.9 million); \$30.4 million for the General Defense Intelligence Program (FY85: \$24.9 million); \$214.1 million for Automatic Data Processing Equipment (FY85: \$231.4 million); \$17.4 million for Audio Visual Equipment (FY85: \$19.0 million); \$72.7 million for Electronic Warfare (FY85: \$47.2 million); \$278.8 million for Tactical Electronics (FY85: \$631.2 million); and \$735.9 million for Support Equipment and Facilities (FY85: \$931.3 million). The equipment in these categories is required to sustain troops in combat, to provide electronic combat multiplier advantages and protection to the individual soldier, to help him carry the battle to the enemy, and to sustain the production base, exploiting the latest developments in miniaturization, solid state circuitry, and modular fabrication.

Department of the Army Annual Budget Estimates	Appropriation		FY 1984	
JUSTIFICATION	OTHER PROCUR	EMENT, ARMY		Budget
Program or Budget Project Account	(Thousands of Dollars)			
	Actual	Estimate	Estimate	Estimate
ACTIVITY 3 - OTHER SUPPORT EQUIPMENT	FY 1982	FY 1983	FY 1984	FY 1985
Direct Obligation or Direct Budget Plan	1,083,578	834,700	1,433,565	2,107,700

Section 1 - PURPOSE and SCOPE

The funds provide for procurement, manufacture, and conversion of chemical defensive, bridging, engineer (non construction), combat service support, petroleum, water, medical, maintenance, construction ,rail, float, containerization, generators, material handling and other support equipment. The funds also provide for initial and replenishment spares and production base support associated with this budget activity.

Section 2 - JUSTIFICATION OF FUNDS REQUESTED

Chemical Defensive Equipment (P-1 Line Item No. 247-257)

(\$ in Thousands) FY 1984 FY 1985 61,000 90,200

This category includes chemical-biological individual and collective protection, detection and warning, decontamination, and contamination avoidance equipment. The FY 1984 funds requested will fill shortages and provide for replacement of over-age masks. In addition the FY 1984 funds procure collective protective equipment, and a lightweight decontamination apparatus necessary for U. S. forces to operate in a chemical environment. FY 1984 also continues the multi-year procurement of smoke generators essential for tactical operations. The FY 1985 program continues the procurements listed in FY 1984.

5-15 January 1983

Bridging Equipment (P-1 Line Item No. 258-265)

(\$ in Thousands) FY 1984 30,900 FY 1985 35,300

This category includes components of the Ribbon Bridge System and the Medium Girder Bridge System. The FY 1984 program initiates multi-year procurement of the Interior and Ramp Bays and continues multi-year procurement of the Transporter for the Ribbon Bridge System in support of unit shortages. FY 1984 also includes acquisition of the Link Reinforcing Set for the Medium Girder Bridge which allows for the lengthening of the span of the Medium Girder Bridge while retaining the capacity to carry heavy equipment loads. These sets are required to support Medium Girder Bridge components already in the inventory. The FY 1985 program continues the multi-year procurement of the Ribbon Bridge Transporter initiated in FY 1983 with a required skip year in FY 1984 because of the long initial procurement lead time.

Engineer (Non-Construction) Equipment (P-1 Line Item. 266-272)

(\$ in Thousands) FY 1984 FY 1985 75,000 154,200

This program provides funding for mine/countermine, navigation/survey and topographic support systems, and the Armored Combat Earthmover. The FY 1984 program includes the initiation of a multi-year acquisition of the Armored Combat Earthmover required by combat engineers to provide essential combat support to the fighting force. The FY 1984 program continues the multi-year program for the Position/Azimuth Determining System required to provide survey data to emplace firing batteries, launcher locations, observation points and other fire support elements. In addition, the FY 1984 program completes procurement of the Topographic Support System which provides a complete mobile mapping capability to the tactical commander and the multi-year procurement for the Mine Clearing Roller used by tank battalions in Europe to detonate mines. The FY 1985 program initiates a multi-year procurement for the Mine Detecting Set used to locate metallic anti-personnel and anti-tank mines and continues procurement of the Mine Clearing Roller. Both the FY 1984 and 1985 programs continue to support procurement of Ground Emplacement Mine Scattering System (GEMSS) which is the first U. S. system to automatically dispense mines simultaneously or individually in a controlled pattern.

5-16 January 1983

Combat Service Support Equipment (P-1 Line Item No. 273-282)

(\$ in Thousands)
FY 1984 FY 1985
42,600 63,800

This category provides for the acquisition of various combat support equipment items. In FY 1984, the program includes various size/capacity air conditioners required to support major systems such as aviation maintenance shops, missile systems and communications and electronics shops. Also included are continuing programs for compressors, firetrucks, heaters, and printing and binding equipment. The FY 1985 programs continue the FY 1984 programs and add funds for diving equipment and the trailer mounted field laundry unit. The items procured in this category support the men and equipment that must operate in all weather conditions under field environments.

Petroleum Equipment (P-1 Line Item No. 283-293)

This category includes equipment necessary for the storage and distribution of fuel. The FI 1984 program provides for continuation of the multi-year acquisition of 10,000 gallon fabric collapsible tanks and 5,000 barrel bulk fuel tanks to be used at fuel system supply points and for bulk petroleum storage. The program also includes funds for continued multi-year procurement of tank-pump units used to refuel combat equipment throughout the area of operations. The fuel handling hoseline outfit which provides a portable pipeline within the area of operations is also an essential program element. FI 1984 begins procurement of the RDF POL Distribution System, which includes bulk storage tanks, hoses, pumps, etc., required to support the Army's large mission of distributing bulk petroleum to all land based forces in the Rapid Deployment Joint Task Force. The FI 1985 program provides for continuation of the RDF POL initiative and the multi-year program for the tank and pump unit, as well as the multi-leg tanker mooring system used in offloading POL tankers and the 350 GPM pump used in POL distribution systems.

Water Equipment (P-1 Line Item No. 294-298)

FY 1984 FY 1985

This category includes water support equipment required to provide a capability for production, purification, storage and distribution of water. The FY 1984 program provides for the acquisition of the Tactical Water Distribution System in support of the long-range Phase II program to support the Rapid Deployment Joint Task Force (RDJTF). The FY 1985 program includes acquisition of drilling machines used in water production.

5-17 January 1983

FY 1985 programs are also requested for continued acquisition of the Tactical Water Distribution System, various capacity storage distribution systems, water chillers, collapsible storage tanks and the Forward Area Water Point Supply System. To provide purification capability, programs are included for the 600 and 3000 gallon per hour Reverse Osmosis Water Purification Units (ROWPU) and the 150,000 gallon per day ROWPU. FY 1985 programs complete filling Phase I equipment shortfalls and support procurement of Phase II equipment acquisition objectives for the RDJTF.

(\$ in Thousands)

Medical Equipment (P-1 Line Item No. 299-310)

FY 1984 FY 1985 151,600 185,900

Medical equipment funding provides for the procurement of investment equipment to support both Army fixed medical activities and field medical units worldwide.

- a. This program finances the acquisition of medical care support equipment needed to support Army fixed medical activities. It provides for the initial equipping of approved major medical MCA programs, removation and modernization projects; the replacement of uneconomically repairable and obsolete equipment; the acquisition of new technologies essential to the delivery of modern health care; and equipment for drug abuse testing laboratories, environmental pollution monitoring, and the clinical investigation of significant health care problems.
- b. This category also procures medical equipment which is the initial issue quantity for new or existing tactical field medical units in the approved force structure, procurement of field medical equipment to be placed in PONCUS, and the acquisition of field medical investment equipment to replace worn out, obsolete or uneconomically repairable equipment, or field unit shortages. Programmed resources will equip and modernize the field medical force, both hospitals and other medical field units. This is in compliance with Defense Guidance and overcomes serious Army recognized equipment shortages which prevents meeting field medical support missions in the event of contingencies. Hany of the items being procured for field medical units share communality with items being procured by other services as a result of the current Quad Service standardization process.
- e. In addition, this category funds Electrical Generator/Environmental Control Systems, one and twosided expandable tactical shelters, and two and six section extendable, modular, personnel (TEPPER) tents for use by Army Combat Zone Hospitals.

5-18 January 1983

Maintenance Equipment (P-1 Line Item No. 302-310)

(\$ in Thousands)
FY 1984 FY 1989
85,500 116,700

This category includes numerous types of maintenance equipment sets necessary to perform maintenance on all equipment in the field. Examples include welding shops, general purpose repair shops and hydraulic tool outfits. The FY 1984 requested funding will begin multi-year procurement on three of the shop equipment sets to fill shortages existing in the field. The FY 85 program continues the procurement began in FY 1984 and initiates multi-year procurement of the contact maintenance truck which is the workhouse of maintenance equipment sets in a tactical environment. The procurements scheduled for FY 1984 and FY 1985 will significantly increase the readiness of maintenance units in the Army and directly impact the readiness of our combat forces.

Construction Equipment (P-1 Line Item No. 311-329)

(\$ in Thousands)
FY 1984 FY 1985
261,400 449,900

The FY 1984 funds requested will continue the standardization program of Combat Construction Equipment (CCE) for graders, loaders, scrapers, compressors, and pneumatic tool outfits. In addition, FY 1984 will start the standardization effort for bulldozers and 7 1/2 ton rough terrain cranes. A replacement item, Small Emplacement Executary (SEE), will be procured to meet the increased mobility requirements of present and future combat forces. The FY 1985 program continues the FY 1984 efforts which are critical to standardizing combat construction equipment while increasing the readiness posture of the United States Army.

Rail, Float, Containerization (P-1 Line Item No. 330-344)

(\$ in Thousands) FY 1984 FY 1985 R1.700 175.600

This category provides for two major thrusts in the FY 1984 and FY 1985 timeframe. The first thrust includes procurement of watercraft to meet the Logistics-Over-The-Shore (LOTS) movement of tonnage in support of RDJTF. The second thrust is the replacement of Army rail flat cars and POL tank cars in support

5-19 January 1983

of peacetime shipping requirements as well as M-day mobilization requirements. Since the Army is the executive agent responsible for the Department of Defense Rail Interchange Fleet (DRIF) it is imperative that these funds be provided. The FY 1984 program provides funds to initiate multi-year procurement of two : ease to replace over-age and unserviceable assets in the field. These are the Landing Craft Utility (LCU) which provides capability to transport cargo, troops and vehicles from ship to shore and the Logistics Support Vessel (LSV) which provides capability to carry container handling equipment required for LOTS operation.

The FY 1984 program also provides for the continuation of the acquisition of the 140 ton railcars to replace the over-aged 100 ton flatcar to be used in the transport of heavy weapon systems (ie., Ml tanks, Ammo Containers). The program also includes the acquisition of the MILVAN shipping containers required to move and store ammunition in support of the Containerized Ammunition Distribution System (CADS).

The FY 1985 program continues procurement of LCU's and LSV's and also initiates multi-year procurement on several other watercraft items to include: large tugs to replace current 100 feet tug now used by boat companies to berth and unberth large vessels; service boats which provide command and control plus security in harbors and on inland waterways; pier barge (B-Delong) used as temporary pier, serves to load and offload ocean going ships. In addition, the FY 1985 program provides for continuing of the 140 ton railcar and the shipping container programs, plus initiation of programs to acquire refrigerated containers and a multi-year acquisition of 20,000 gallon POL tank car to replace over-age 10,000 gallon cars that will reach their mandatory retirement age in FY 1989.

Generators (P-1 Line Item No. 345)

(\$ in Thousands)
FY 1984 FY 1985
101,600 125,400

These funds are required to provide generators and power units of varying sizes and capacities, primarily designed to provide power sources for electrical lighting and communications and computer systems for a variety of combat (ie., missile and weapon systems) and combat support units. The program supports both the acquisition of power sources for combat and combat support equipment currently being acquired and fielded, as well as replacement of over-age, obsolete power generator equipment currently being used in units. The FY 84 program includes multi-year acquisitions of the 5, 10, and 100KW, 60HZ generators. The FY 1985 multi-year acquisition programs and initiates procurement of new family of a Silent Lightweight Electric Energy Plants (SLEEP) generator systems which will reduce the signature of combat units requiring power in the forward edge of the battle area.

5-20 January 1983

Materiel Handling Equipment (P-1 Line Item No. 346-355)

(\$ in Thousands)
FY 1984 FY 1985
73,800 70,900

The FY 1984 funds requested begin the standardization program for four commercial forklifts critical to ammunition handling. In addition, a 10,000 lb. rough terrain forklift and a 50,000 lb. container handler critical to movement of all supplies is continued to be procured during the period. The FY 1985 program continues the FY 1984 programs with the addition of the 6000 lb rough terrain forklift used with ammunition units. These programs are essential to fill shortages created by worn-out over-age equipment that degrades equipment readiness.

Other Support Equipment (P-1 Line Item No. 356-368)

(\$ in Thousands) <u>FY 1984</u> <u>FY 1985</u> 387,656 483,500

This category continues funding of six major thrusts. These are: Spares and Repair Parts, Production Base Support, efficiency programs, Base Commercial Equipment, Non Systems Training Devices, and Special Programs. The Spares and Repair Parts properly interface with the programs recommended for procurement while the Production Base Support program supports items planned to be procured in the next few years. Improper funding in these areas causes equipment to border on unsupportability once fielded or the inability to procure when scheduled. The efficiency programs include projects for which amortization schedules allow recouping costs in 4 years or less. Base Commercial Equipment implements Congressional direction to procure those items over \$3,000 which are not centrally managed. As the cost of items increases more items exceed the \$3,000 limit and must be procured in this line, thus, the value of the line must increase at a greater rate than inflation as more lines are added. The thrust in training devices is to procure new standardized target systems for our ranges and laser engagement simulation systems for our new weapon systems. These initiatives directly impact combat soldier readiness in that the individual can be trained to perform on a simulated battlefield.

Avoidance Savings

Value Engineering projects resulted in avoidance savings of \$200,000 which demonstrate how much higher the Army's budget plan would have been without this Economies, Efficiencies and Management Improvement action.

5-21 January 1983

OTHER PROCUREMENT, ARMY

Section 3

Comparison of Program Requirements and Financing

Comparison of FY 1983 program requirements as reflected in the FY 1983 budget with FY 1983 program requirements as shown in the FY 1984 budget.

Comparison of FY 1983 financing as reflected in the FY 1983 budget with FY 1983 financing as shown in FY 1984 budget.

Comparison of FY 1982 program requirements as reflected in the FY 1983 budget with FY 1982 program requirements as shown in the FY 1984 budget.

Comparison of FY 1982 financing as reflected in the FY 1983 budget with FY 1982 financing as shown in the FY 1984 budget.

5-22 January 1983

COMPARISON OF FY 1983 PROGRAM REQUIREMENTS AS REFLECTED IN FY 1983 BUDGET WITH FY 1983 PROGRAM REQUIREMENTS AS SHOWN IN FY 1984 BUDGET

SUMMARY OF REQUIREMENTS (In Thousands of Dollars)

Appropriation: OTHER PROCUREMENT, ARMY	Total Program Requirements Per FY 83 Budget	Program Requirements Per FY 1984 Budget	Increase (+) or Decrease (-)
Activity 1 - Tactical and Support Vehicles	1,256,500	1,229,600	-26,900
Activity 2 - Communications and Electronics Equipment	2,339,164	2,044,004	-295, 160
Activity 3 - Other Support Equipment TOTAL	971,827 4,567,491	834,700 4,108,304	<u>-137,127</u> -459,187

- 1. <u>Tactical and Support Vehicles</u>. Decrease of \$26,900 thousand is a result of \$7,300 thousand specified reduction and \$19,600 thousand in offsets for general reduction made during Congressional action on the FY 1983 Budget Request.
- 2. Communications and Electronics Equipment. Net decrease of \$295,160 thousand is a result of \$387,087 thousand in specified reductions and \$9,600 thousand in offsets for general reductions made during Congressional action on the FY 1983 Budget Request; an increase of \$71,000 thousands for classified programs and \$1,973 thousand decrease as sources in the FY 83 Amended Budget Request; and an increase of \$32,500 thousand from planned FY 1983 reprogramming actions.
- 3. Other Support Equipment. Net decrease of \$137,127 is a result of \$102,600 thousand in reductions made during Congressional action on the FY 1983 Budget Request; an increase of \$24,400 thousand in classified programs and \$11,300 thousand decrease as sources in the FY 1983 Amended Budget Request and a \$47,600 thousand decrease as sources for planned FY 1983 reprogramming actions.

Other Procurement, Army Narrative Justification Consultant, Studies and Analyses and Management Support Contracts

Professional and Management Services

- Support services are essential to adequately prepare for and conduct major program and testing milestones; to insure that production quality is maintained; that problems are quickly and cost effectively resolved; and that the fielding process is successfully planned and accomplished for the AN/TPQ-36 Mortar Locating Radar. The funds shown below reflect obligations of FY82 three year appropriations.

Program Management Support

<u>FY82</u> \$582	FY83 \$725	<u>FY84</u> \$725
Logistic Support		
<u>Fy82</u> \$53	FY83 \$75	FY84 \$75
Technical Data Collection	n	
\$300	Fy83 \$300	<u>PY84</u> \$300
